**SUGA Wins the 2021 Dingge Award –  
Digital Transformation Pioneer List  
– “Annual Supply Chain Transformation Award  
– Supply Chain Upgrade and Integrated Innovation Project”**

**Suga International Holdings Limited** (“SUGA” or the “Group”) has been honoured with the “Annual Supply Chain Transformation Award - Supply Chain Upgrade and Integrated Innovation Project” (“年度供應鏈轉型典範獎 — 供憑鏈升級及融合創新項目”) within the Digital Transformation Pioneer List of the 2021 "Dingge Awards" (“2021【鼎革獎】數字化轉型先鋒榜”) acknowledging its success in implementation of SAP enterprise resources planning solutions.

**Dr C. H. Ng, Chairman and Managing Director of the Group**, said, “We are genuinely gratified to garner this award, representing the recognition of our efforts in going digital. Our implementation of the SAP S/4HANA in 2018, and FICO, SD, MM, PO, QM and EWM more recently were deemed successful and rolled out to our Vietnam factory, resulting in improved production efficiency and inventory management for the Group. As we believe digital transformation has become the mainstream of global enterprises, we will continue to further digitalise our business models in the future.”

The "Dingge Award" is co-organised by *Harvard Business Review* and SAP China, with academic institutional support from Tsinghua University's Global Industry Research Institute. The Award is intended to recognise enterprises in mainland China and Hong Kong that have leapfrogged competitors and focuses on their progress in digital transformation.
